CAREER OBJECTIVE

Motivated BCA graduate with hands-on experience in web development, manual testing, and software projects. Eager to contribute strong problem-solving, technical, and teamwork skills in an Entry-level Software Development or Quality Assurance role while continuously learning and delivering high-quality solutions.

LEADERSHIP & RESPONSIBILITIES

- **Department Coordinator** — Led department-level activities by coordinating closely with students and faculty to plan and execute events smoothly.
- **Acting NCC Lead** — Led the college NCC unit in the absence of the ANO (Associate NCC Officer), managing cadet coordination, drills, and discipline.
- **Student Head, Inter-College Tournaments** — Served as the Student head for the inter-college tournament conducted by the college, overseeing planning, logistics, and on-ground execution.

EXPERIENCE

Datasigns Technologies Pvt Ltd — QA / Manual Tester

Dec 2025 – Jan 2026

- Executed end-to-end manual and User Acceptance Testing (UAT) on the Loan Management System (LMS) across diverse user workflows to catch edge cases and business logic bugs.
- Conducted API testing with Postman to validate request/response payloads and reported defects directly to developers for quick resolution.

PROJECTS

Serve the Nation

Jan 2026 – May 2026

"Serve the Nation" is a centralized digital ecosystem designed to streamline the complex landscape of government recruitment for Indian graduates. Currently, job seekers struggle with fragmented information, delayed notifications, and the absence of a unified tracking system across sectors like SSC, UPSC, Banking, Railways, and State PSCs. This project addresses these challenges by consolidating disparate job data into a single, user-centric interface.
